

Village of North
Collins Garbage
Pickup is FRIDAY
mornings by

Casella

Phone

Pat 716-720-0900

**Everything should
be out by 6am.**

Pick up is delayed
one day if a
designated holiday
falls within the
week—CodeRed
calls will be sent.
Casella will pick up
1 (one) Casella toter
GARBAGE from
each residence each
week. Should you
produce more than
(one) 1 toter of
GARBAGE per week
arrangements
can be made with
CASELLA to rent
extra toters for a
yearly fee.

Since the Village of
North Collins has our
own yard waste
pickup, Casella will
not pick up yard
waste of any kind.

Casella will also pick
up two (2)
BULK items such as
furniture or
mattresses each
week; as well as
two (2) white items
such as household
appliances
each week.

All bulk items must
be under 80 pounds.
Furnaces will not be
picked up nor will
items that contain
Freon (refrigerators,
humidifiers,
air conditioners, etc.)

**CALL VILLAGE
OFFICE ANYTIME:
337-3160**

**Call the same day if you
have followed these
guidelines and your
items were not picked
up.**

LANDLORDS: Please make sure that your tenant receives a copy of this information. It is available at our office and on our website: www.VillageofNorthCollins.org by clicking on “Minutes and Misc Documents” then “Misc Documents.” It is labeled Casella Garbage and Recycling Tips.

There is no limit to the amount of recycling that can be accepted but please remember that if guidelines are not met, our ability to recycle in the future may be jeopardized. Here are some helpful reminders that will ensure that this valuable service can continue:

- Please break down cardboard boxes. This allows the recycling truck enough room to pick up the entire village in one load.
- The place that takes the recycling, Buffalo Recycling, no longer accepts waxy or glossy cardboard items. (Juice cartons come to mind and some of the soda containers are waxy/glossy)
- All containers should be rinsed out as thoroughly as possible. If there are still chunks of peanut butter or mayo or salsa or whatever in the glass or plastic containers then they get rejected as trash. Since we do zero sort, one container of PB with stuff still in it could reject the entire load. No one wants to see that happen because that raises the rates for everyone.
- Pizza boxes must be grease free. Greasy box bottoms should be put in the trash and the top of the box can be recycled. Take and bake pizza boxes are acceptable for recycling as long as the plastic wrap goes in the trash.
- Lids/caps on glass or plastic bottles and jars are NOT recyclable. Since they contain materials that are not recyclable, the lids/caps must go in the garbage.

**RECYCLING GREATLY REDUCES THE AMOUNT OF WASTE IN THE GARBAGE TOTERS.
THERE IS UNLIMITED RECYCLING SO TAKE ADVANTAGE OF THIS TO HELP KEEP YOUR
TAXES LOWER AND REDUCE OUR LANDFILL WASTE.**

UNACCEPTABLE RECYCLING ITEMS
