

As printed in the Eden North Collins Pennysaver the first weekend of May, 2022

Village of North Collins Residents

PLEASE READ

The Village of North Collins has contracted with Casella Waste Systems, Inc. to provide 96-gal Garbage and Recycling Totes to every household in the Village.

Delivery of totes will begin May 9, 2022 and will continue until complete. You **DO NOT** need to be home. You **DO NOT** need an appointment. You **DO NOT** need to call. Please begin using them **WHEN THEY ARE DELIVERED** to your home.

The maximum limit of five (5) bags of garbage has not changed. If you cannot fit all of your bags into one to tote, you may put out an additional garbage can of your own. If that happens often, please contact Casella directly at 716-483-5128 xt. 4584 to discuss your options.

At this time, both Garbage and Recycling will continue to be picked up every week. *If recycling changes*, we will notify you well in advance and will provide a pickup calendar.

Two bulk items can be thrown away each week. Mattresses and box springs must be wrapped in plastic in order to be picked up (inexpensive, ready-made bags are available for purchase at Gui's in North Collins). TV's, Computers, and other electronic or hazardous household waste will not be picked up. Please contact the Village Office at 716-337-3160 for ways to dispose of those items. Yard waste of any kind also will not be picked up by Casella. The Village DPW will be picking up yard waste once a month starting on the first Monday of May.

Please remember that NO garbage, bulk, or recycling is to be placed at the curb BEFORE 6:00pm on Thursday but **must be out before 6:00am on pickup day**. In order to keep the Village streets clean and clear of debris, please remember to bag all loose garbage.
